- \*Etiquette Consultants
- \*Stylists

If you’re like most people today, you understand the struggles of finding just the right thing to wear for that special corporate event, or that regular day at the office. You’ve stood in front of the mirror, in different outfits searching for the perfect look, secretly believing you will never find it. Still, after painstaking effort you never feel quite right about who you are or how you look.

Truth is, we have all experienced those feelings of inadequacy. Color, image and style are three keys to unlocking the unique persona that exists in each one of us.

It is our goal to train consultants with the ability to empower people through a greater understanding of who they are by providing tangible tools needed to allow true personality and professionalism to shine. Understanding one’s personal image allows for one to become more confident, effective and productive in both personal and professional settings.

In God’s Image is dedicated to educating professional consultants through an intense training program focused on the development of personal image. Trainees will become competent consultants, prepared to share life changing tools with those individuals seeking the opportunity to improve their personal image.
